GPS-GSM Based....

Vehicle Tracking, Monitoring

Vehicle Theft Protection System

Executive Summary

- ❖ **A Bangalore, India, based Company.**
- ❖ Commenced operations in February 2009.
- ❖ Engaged in Design and Development in the domains of GPS,GIS, Mobile Applications, RFID, Web Based Enterprise Applications.
- ❖ Manufacturing and Quality Assurance.
- ❖ A Full Fledged R & D wing with a dedicated team of qualified professionals.

OUR VISION

To be a vibrant company, providing quality and efficient service to customers and a rewarding experience to its employees.

OUR MISSION

We will develop products and provide services that will have a Strong Social Impact and would improve the quality of Human Life. From a business perspective, our products/services will help our clients get a better control over their business and make a positive impact to their bottom-line. .

INNOVATION

Through our innovative ideas, we always thrive to develop our next revolutionary product. We believe, nothing can inspire us like innovation. “Just as energy is the basis of life and ideas the source of innovation, so is innovation the vital spark of all human change, improvement and progress”.

Our innovative products and solutions have always played a major role in solving our clients’ specific problems. Our solutions are simple, cost effective, and developed by observing the end user needs. Our knowledge of multiplatform technologies, simple and proved methods and eagerness to develop the next big thing, has made us one of the competent companies capable of delivering state of the art cutting edge technology products.

“We are inspired to innovate”

Product Information

- ❖ Tracking and Monitoring of Vehicles and other Business Assets using GPS-GSM-RFID based technology is becoming increasingly popular because of the technology's inherent capability to deliver absolute control over the movement of the Vehicles/Business assets and ensure optimum productivity and performance.
- ❖ Added to this it has also become extremely critical to guard the Vehicles/Business Assets against theft and possible loss as the cost of the Vehicles/ Business assets is increasing everyday and the claim processes from insurance companies is tedious, painful and uncertain.
- ❖ iTriangle has designed and developed a next generation anti theft vehicle protection solution based on GPS-GSM technology. This solution is further reinforced with the first of its kind technology in India called GeoLock, a unique solution exclusively developed and presented by iTriangle Infotech. This solution provides complete and a fool proof anti theft mechanism and thereby an absolute PEACE OF MIND.

aQuila Track with Vehicle Theft Protection System

❖ aQuila Track U101

❖ Immobilization Relay

❖ Sound Alarm

❖ Geo Lock

Standard Features (No GPRS Facility Required)

- ❖ Geo Lock :
 - ❖ On sending a one touch message from your phone, locks the Vehicle in a particular geographical area, where it is being parked.*
 - ❖ Activates a hooter alarm if the vehicle crosses the locked geographical area.
 - ❖ Sends an alert SMS to the vehicle owner upon Geo Lock Violation.**
- ❖ Vehicle Immobilizer : Immobilizes the vehicle immediately after the vehicle crosses the Geo Locked area.**
- ❖ On demand tracking : Send SMS to the Mobile connection in the device and receive location information through SMS on your Mobile. **

- ❖ Live/On Demand Tracking : Tracks the Vehicle real time and provides location, distance covered, halt/stop info, daily/monthly and Various other reports. ***
- ❖ Geo Tagging, Geo Fencing, Route Replay features with detailed reports.***

* Will not work if the vehicle is out side the GSM network.

** The SIM Card in the device (to be procured by the customer) has to have a incoming and out going facility.

* ** Live/On demand tracking facility and other optional features are available subject to the Subscription of applicable Monthly Packages.

Other Tracking and Monitoring Features (optional)

- ❖ Live/History Tracking,
- ❖ Speed notification,
- ❖ Distance travelled,
- ❖ Fuel Monitoring(Optional with extra cost),
- ❖ Real Time Location of the vehicle,
- ❖ Geo fencing,
- ❖ External RFID Support(optional with extra cost)
- ❖ Vehicle location, status and minute wise speed display on state of the art GIS maps in real time,
- ❖ Over speed report. Identification, record and display available at Back end,
- ❖ SMS based event notifications, alert in case of speed violation and geo fence violation (Optional & Extra Recurring costs will apply),
- ❖ Location and Fuel Level Query through SMS.
- ❖ Dynamic over speed limit setting from web interface,
- ❖ All parameter configurations from web interface,
- ❖ Vehicle Immobilization(Optional with extra cost)
- ❖ Listen In Facility (Optional with extra cost)
- ❖ Secondary Battery Backup up to 8 hours,
- ❖ **Domain Specific MIS Reports:** Journey report, Daily report, Monthly report, Halt/Stop Report, Indicative fuel report & pilferage controller (optional) , Ignition On/Off report , Daily Route Replay, RFID Based Login, Logout Reports (optional) and more.....

How does this work?

Features may vary depending on the model and the variant

No GPRS Connectivity required; No
Recurring Charges

The SIM Connection fitted in the device, in
the Vehicle, should have incoming and
outgoing SMS facility.

How does this work?

No GPRS Connectivity required; No
Recurring Charges

The SIM Connection fitted in the device, in
the Vehicle, should have incoming and
outgoing SMS facility.

**"Your
Vehicle
is Now
Immobilised"**

No GPRS Connectivity required; No
Recurring Charges

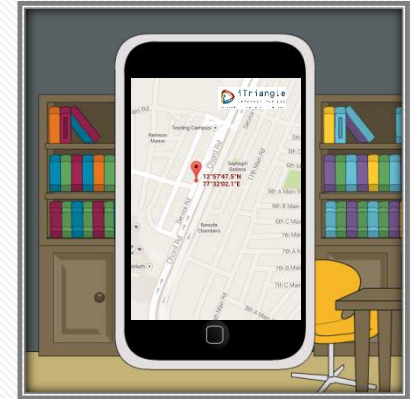

The SIM Connection fitted in the device, in
the Vehicle, should have incoming and
outgoing SMS facility.

Send SMS to the SIM card in the
device fitted in the vehicle as
GLOCATE.

You will get an immediate reply
with the location coordinates.

Use the browser in our mobile to
go to maps and identify the exact
location of the vehicle.

- You can even use your laptop/desktop to go to maps and use the sent location coordinates to identify the location.
- Please note, this feature works on all Smart Phones.

FAQs

- How do I restart my vehicle?
Ans. Send a SMS to the SIM connection in the vehicle as “UNLOCK MY VEHICLE”. The immobilized vehicle can now be restarted.
- Does this system work in a Non GSM Network area?
Ans. No, GSM network is compulsory for the system to work, like receive LOCK SMS command or UNLOCK SMS command.
- Does the vehicle sets automatically Geo locked?
Ans. No, the user has to send a “LOCK MY VEHICLE” SMS command to the SIM connection in the device fitted in the vehicle.
- What happens if the user starts the vehicle and tries to move without giving the “UNLOCK MY VEHICLE” SMS command?
Ans. The Anti-Theft system will get activated. The hooter will get activated and the vehicle will get immobilized.
- Will both Prepaid and Post-paid SIM connections work?
Ans. Yes, both Post-paid and Prepaid SIM connections will work. Provided, they are active and sufficient balances.
